ANNUAL REPORT 2022-23

All India Catholic University Federation is a movement which stands for the service and liberation of all people, irrespective of caste, gender, language and belief.

The AICUF unit at Jesus and Mary College organizes various socially relevant and personality development-oriented programs with the aim of transformative education for its members. The society tries to achieve this through several outreach programs, by which the students get practical exposure to the day-to-day living of the underprivileged and the marginalized, they are sensitized about the socio-economic realities of our country.

Motivated by these experiences, many of the students take up the challenging tasks of contributing towards the emancipation of women and the uplift of the deprived and needy sections of our society. AICUF programs organized within the college help students to develop organizational abilities and leadership skills as they are required to take charge and involve themselves with all the events/seminars and research conducted.

Working at an NGO adds meaning to our lives because nothing can be greater than sharing love and happiness. 21st April - 23rd April 2023

Evlogia means "Blessing".

A 3-day stay retreat was conducted by AICUF JMC for its members which was scheduled inside the premises of the college.

The residential retreat was led by Mr. Matthew Anthony and team.

The meals and other basic necessities for the participants were arranged by the AICUF team.

AICUF faculty and core team volunteers were present, at all times, with the participants to ensure their well being.

Day 1 (21/04/23 - Friday)

The first day of the retreat was an emotional roller coaster ride. It started in the evening at around 6pm with an introduction of the team members. The team consisted of Mr. Matthew Anthony, Ms. Bernadette Mable Morris, Mr. Ashish John,

Ms. Shweta, Mr. Subin Joy, Ms. Rachel Ramesh, Ms. Dania & Ms. Rachel Matthew, each one equally devoted and unique.

We started with a praise and worship session in which we learnt many beautiful and heartwarming hymns. It was followed by Testimony which took about two and a half hours. By the end of the testimony, all the participants became emotional. After the testimony, the team boosted the mood of the participants by praying and sharing the Word Of God. At around 10pm the first day's session was over. Night prayers were chanted and dinner was served to the students. Post dinner all the students were instructed to head straight to the rooms assigned to them.

Day 2 (22/04/23 - Saturday)

The second day of the retreat was the main highlight of the event. The day began at around 7:00 am with another praise and worship session where we learnt action songs. This continued for about forty minutes and then we had a testimony given by Matthew Sir, who shared his life experiences and incidents which brought him and his family closer to God. Around 9:00 am, breakfast was served. After breakfast, we were accompanied by Matthew Sir, who brought clarity into the thought of 'what it feels like to be loved by the Almighty'. At 11:00 am, we were given a short tea break. Later, another person shared their testimony. The testimonies were really empowering and inspired most present. At 01:00 pm the lunch was served and students were given a little break. After lunch, the team prepared a session of Confession for all the students. For helping with the confessions we had Fr. Alberto, Fr. Maria Antony & Fr. Arnold. The confession helped the students to grow out from their sins and focus on their present. The confession session continued for about four hours. At 04:00 pm, we had a small tea break. After the tea break, Holy Mass was celebrated which was offered by Fr. Maria Anothy. After the Mass, we dived into the preparation for Adoration for which we had a small talk session with the team members. The Adoration was powerful as most of the people felt the presence of God and received blessings from the Almighty. After the Adoration, dinner was served and all were instructed to head back to their rooms post dinner.

Day 3 (23/04/23 - Sunday)

The third day marked the end of the residential retreat. Before breakfast, the participants attended the Holy Mass which was offered by the Auxiliary Bishop Deepak Valerian Tauro. At 09:00 am, we began with our praise and worship session.

ANNUAL REPORT (2022 -2023): ENACTUS JMC

Enactus JMC strives to work towards empowering people from marginalised and deprived segments through creating livelihood opportunities. The team has been successful in organising several events and campaigns throughout the academic year of 2022-2023 which has helped make a significant impact in the society and the future entrepreneurs of the community.

The year started with election of office bearers, wherein Kavya Gupta (2nd year, B.com(H)) and Navya Joseph (2nd year, Economics Honours) were elected as President and Vice-President respectively through a rigorous recruitment process. During the year, two rounds of recruitment process took place making Enactus a team of 96 members in total.

Enactus JMC's first event of the academic year was 'Advitya', the second edition of the annual flagship event, on 26th September 2022. Along with 3 competitions including Vichaar, Udaan and Chakravayuh, there were a wide range of stalls, sponsors and performances for the event. The whole event had a footfall of over 5000 students with exciting cash prizes up to ₹45,000.

On 29th September, Project Dhara collaborated with Enactus Maitreyi to gain an understanding of the method used by them for producing manure, accompanied by Project Dhara's Faculty In-charge, Dr. Anshi Goel. Project Dhara also conducted a recruitment drive for beneficiaries on 3rd March 2023 in order to recruit women who were willing to work from Bapu Dham and Sanjay Camp.

On 25th January 2023, Project Sugam members visited their ecobrick storage facility to conduct a quality check on the eco bricks made by one of their collaborators, Jaago Bharat. The second edition of Stash the Trash campaign was conducted from 20-24th March 2023, and 34.4 kgs of single use plastic was collected in 5 days. There were 4 hotspots around the college which were manned by Enactus members for collecting single use plastic waste. On 23rd February 2023, the President and Project Sugam heads met the MLA of Nangloi to garner his support for our project. On 24th April, Mr. Sanjay Kumar Sain, DCP Central District, provided us with a location for our pilot washroom. On the occasion of Earth Day, Project Sugam organised an awareness session on sustainability and taught around 100 school kids how to make eco bricks at Dayanand Model School.

On 3rd March 2023, Enactus members paid a visit to Burari, production site of Project Iffat, to meet the beneficiaries and host the future potential partner, Andaz Hotel's managers. After a month-long process, we successfully collaborated with Andaz by Hyatt, Aerocity for the procurement of used soaps.

Additionally, a Breast Cancer Awareness Seminar was conducted in collaboration with Win over Cancer providing a comprehensive overview of breast cancer, its treatment and the importance of early detection in January 2023. The guest speaker for the seminar was Dr. Richu Sharma, associate consultant of medical oncology at Artemis hospital, Gurugram.

The society owes its heartfelt gratitude to the Principal Prof. Sandra Joseph for her constant support. This year, Enactus JMC would not have been successful without the unremitting guidance and encouragement by Dr. Savita Rastogi (Faculty Advisor), Ms. Ishita Singh (Project Sugam Incharge), Dr. Anshi Goel (Project Dhara Incharge) and Dr. Ruchi Bhalla (Project Iffat Incharge).

Udaan: A Flight Towards Sustainability

Advitya'22, which took place on the 26th of September, consisted of three competitions:

- Udaan
- Chakravyuh
- Vichaar.

Udaan was a highly comprehensive competition with three rounds, which tested the participants' head for the business and heart for the world. This competition was headed and organised by Project Iffat and the Public Relations Department. Participations were called upon from all colleges of Delhi NCR as a team of 2.

Judges for the competition were: Ms. Mathangi Ramakrishnan, a professional with 15 years of experience in the corporate and development sector ecosystem, and Ms. Joanna Dawson, who's involved in developing strategies, publications, and partnerships for the Balipara Foundation.

We received a total of 81 responses to the Google Form we circulated for Udaan.

Three rounds were held as a part of Udaan:

The preliminary round, 'What's Your Future City?' was held online a few days before the day of Advitya. It allowed the participants to get their creative juices flowing and fashion their very own dream city. They were required to imagine a scenario where they were in charge of curating, designing, and planning a brand-new city in the hopes of solving some of the most prominent sustainability issues. As responsible citizens and innovative thinkers, they needed to devise a plan for their sustainable city, keeping in mind at least 5 of the 17 Sustainable Development Goals.

This round consisted of submissions in two formats: a Powerpoint Presentation, giving us a theoretical blueprint of how their city plans to fulfil the chosen SDGs, and a poster advertising the same.

10 teams were shortlisted out of the entries received.

The first round, 'Shark City', was held offline in Jesus and Mary College, Chanakyapuri, New Delhi (University of Delhi). The 10 finalists were instructed to come prepared with their city plans from the preliminary round. They were posed with a problem statement on the spot and were asked to come up with a solution. The teams were given 1 hour to prepare a PowerPoint Presentation for the same.

The case at hand mentioned the problem of overpopulation in their perfectly designed cities. All the sustainable development goals they neglected had now become a major issue. Even the ones they planned to fulfil were under threat resulting in their city plan to crumble.

The task at hand was to prepare a budget-specific solution for the same, the budget being in the multiples of 50 crores. The team with the highest budget was required to present first. They were asked to include other intricacies such as changes they plan to implement, views about banning further migration to their city, and problems like hunger management, inequality, etc. After the preparation of the PowerPoint Presentations of 10-12 slides, they were required to pitch them in front of the judges in under 4 minutes. The teams were judged based on the following parameters - innovative thinking skills, relevance, presentation skills, and code of conduct.

The third and final round, 'Mission Possible', was held after a short break after conducting the second round.

In this round, the participants were presented with two lists, where List A contained a few waste items, and List B included some of the Sustainable Development Goals. The teams were judged based on the following parameters - innovative thinking skills, relevance, presentation skills, and code of conduct.

Each of the top 10 finalists were allotted a different Sustainable Development Goal, and were given the first piece of the puzzle, the clue for the next piece as well as a treasure map depicting the 15 possible locations where the clues could have been hidden. The 10 finalists had to locate all the pieces and report back to the team. There was a preferential marking system, where whoever reported back first were marked in a chronological order.

In the second phase, each team had to formulate and present a hypothetical Enactus project, aiming to achieve the Sustainable Development Goal allotted to them. They were marked on their innovation, the feasibility of the project as well as their presentation.

COLLABORATION WITH ENACTUS MAITREYI: PROJECT DHARA

Enactus

Topic: Collaboration with Enactus Maitreyi

Date: 29th September, 2022

Members Present: Dr. Anshi Goel, Kavya Gupta, Navya Joseph, Snigdhaa Anand, Yashasvini Beri

No. of Participants: 4

Enactus JMC - Project Dhara collaborated with Enactus Maitreyi in September 2022. The objective was to learn the method followed by them for the production of the manure. The team looked over the pits at Maitreyi and were accompanied by JMC's gardener to see the same. Student coordinators of Enactus Maitreyi elaborated on the procedure -

- Microbial inoculate used to make the manure. It also keeps the manure fresh and it does not stale for around 1 year. Whereas vermicomposting is time-consuming and the shelf life of manure made using vermicomposting is just 3 months.
- Inoculate is also cheaper compared to vermicomposting.
- Bottom layer - biodegradable vegetable waste, middle layer - cow dung and garden waste, top layer - dried leaves to absorb extra moisture.
- Manure is sundried at first and later put in the shade so that it retains a bit of moisture.
- Watering is required at frequent intervals.

The JMC gardener was asked whether he wanted any queries addressed. General doubts were also asked by the Dhara Heads, and the student team at Enactus Maitreyi addressed the same. Project Dhara's teacher coordinator, Dr. Anshi Goel, was present to ensure that the whole procedure was carried out seamlessly.

PROJECT SUGAM & DHARA: STASH THE TRASH 2.0

Enactus

Topic: Stash the Trash Event

Date: 20th - 24th March, 2023

Venue: JMC Campus

Project Sugam and Project Dhara collaborated to tackle the challenges of open defecation, poor sanitation, and plastic waste. Their joint efforts aimed at producing Eco-bricks and constructing a washroom, while also organising a week-long waste collection drive known as 'Stash The Trash 2.0'.

Project Sugam aims to tackle the problem of open-defecation, poor sanitation and plastic waste by the production of Eco-bricks and utilising these to construct a washroom. While upholding these ideals, Enactus JMC organised the second edition of its campaign 'Stash The Trash'. The first edition of Stash The Trash was a week-long offline campaign organised on the campus of Jesus and Mary College, in March 2022. It was a plastic bottle collection drive.

In the second edition, Project Sugam and Project Dhara collaborated to launch 'Stash The Trash 2.0' which was a week-long, offline, single-use plastic and organic food waste collection drive. Throughout the course of the campaign, the entire team actively participated by volunteering there to maintain the hotspots. Half- hour duty slots were assigned and volunteers were rotated every half- hour.

The drive was conducted on college premises, daily for a week, from 8:30 AM to 3:30 PM. The collection boxes were placed at 4 hotspots which were the Main Gate, Bhelpuri CR, Amphitheatre, and Canteen.

The drive commenced with an opening ceremony on 20th March in the amphitheater. Ms. Vanshika Arora, a stand-up comedian, was present for a comedy show and Rhea Anand, a member of Project Sugam, entertained the crowd with a melodious singing performance. More than 150+ students attended the opening ceremony.

Eco-bricks, the plastic bottle densely packed with used plastic to create a reusable block is one of the most important raw materials for Project Sugam. To make the newly recruited members aware of how Eco-bricks are made, an Eco-brick Training Workshop was conducted on 21st March by Project Sugam Heads- Vasudha Chanana and Navya Anand.

On 22nd March and 23rd March awareness was made across the college to increase the engagement for the drive.

On the last day of the campaign, 24th March, a 'paint-by-numbers' painting activity was organized. A huge banner with the campaign logo was hung and students were invited to grab paintbrushes and collectively paint the banner, which made for an engaging and fun exercise to mark the end of the campaign.

To conclude the event measurement of the collection boxes took place. The drive was a huge success collecting 34.4 kgs of single-use plastic in 5 days.

The drive became a medium for those who wanted to give back and work for society. With additional events on the horizon, the crew celebrates each victory and works hard to plan similar events in the future.

Project Dhara, in conjunction with 'Stash The Trash 2.0', introduced an innovative approach to waste management. The project focused on collecting biodegradable waste, such as fruit and vegetable peels, leaves, and flowers. This organic waste was earmarked for use as raw materials in Dhara's manure production.

Students were encouraged to collect the biodegradable waste generated at their houses and dump the waste into the collection boxes kept at 4 different hotspots in the college. Volunteers were present at each hotspot to ensure that the right kind of waste was being collected. Posters were put up to spread awareness about what to donate and what not to donate, various announcements were made to spread the word and fun activities were organized to increase involvement. Fruit and vegetable peels were also collected from the college canteen.

Once collected, the biodegradable waste for each day was discarded into the pits by the members of project dhara. Along with the collected waste, our college gardener was asked to discard fallen dry leaves into the pits.

The waste collection drive for project dhara is still in continuation. Food waste is collected from the college canteen to be discarded into the pits along with dry leaves and flowers. This shall be continued until the pits are full so that the beneficiaries can start working with all the raw materials in place.

ECOBRIK MAKING SESSION: PROJECT SUGAM

Enactus

Topic: Ecobrick Session

Date: 21st March 2023, Tuesday

Time: 10:30am - 11:30am

Room number: 3rd floor hall

No. of Participants: 55+

On March 21, 2023, Enactus JMC organised an insightful session on how to make an ecobrick, which was delivered by the heads of Project Sugam: Vasudha and Navya Anand. The workshop introduced the concept of utilising plastic bottles filled with non-biodegradable waste materials as building blocks for various structures.

The session covered the necessary steps to make eco-bricks, starting with gathering non-biodegradable waste materials such as plastic wrappers, candy wrappers, and plastic bags. Participants were advised to select a clean and dry plastic bottle of any size depending on their requirements. Using scissors, they were shown how to cut the waste materials into small pieces that could fit inside the bottle and use a stick to compress the materials tightly in the bottle, leaving no empty space. Weighing the ecobrick with a weighing scale was deemed crucial, and the minimum weight of the ecobrick should be 0.33 of the volume of the bottle. Participants were also advised on the different types of materials that could be used or avoided while creating ecobricks, such as single-use plastic and pen caps being acceptable, while anything that can contaminate should be avoided. A video was also shown highlighting how plastic items used in daily lives could be repurposed to create ecobricks. This was followed by the Project Heads showcasing actual ecobricks, and some volunteers were even asked to make an ecobrick for demonstration. The participants had the opportunity to ask any doubts they had, and the session concluded with a small quiz to check their comprehension.

Overall, the workshop was an informative experience, and creating eco bricks is an excellent method of managing non-biodegradable waste materials. This simple and effective process can be used to construct various structures, such as garden walls, benches, and even houses. By making eco bricks, individuals can contribute to a sustainable future and decrease the amount of plastic waste in the environment.

ECOBRIK SESSION : PROJECT SUGAM

Enactus JMC

Topic: Ecobrick session

Delivered by: Navya Anand and Anushka Soni

Date: 21st April, 2023

Time: 11:00am - 1:00pm

Venue: Dayanand Model School, Patel Nagar, New Delhi

No. of Participants: 200+

On April 21 2023, Enactus JMC organised an ecobrick session to teach the students from classes 6 to 8 about eco-bricks and recycling on the occasion of 'Earth Day'. The heads of Project Sugam: Vasudha and Navya Anand delivered the session.

The session began with a discussion on the importance of Earth Day, rising plastic waste and its adverse effects on health and nature. The speakers introduced the term "social entrepreneurship" to the students, discussed how it can benefit society, and briefed them about eco-bricks.

The students were then taught how to make eco-bricks. They instructed the students that clean and dry plastic bottles and waste should be used and informed them about the minimum and maximum density an eco brick should have. They also told the students about the plastic items which were not acceptable to make an eco brick in order to avoid confusion and mistakes. They showed them an actual ecobrick in order to describe their idea more clearly. Each student made an ecobrick with the help of teachers and speakers.

The session concluded with the speakers sharing pro tips with the students to make ecobricks. They encouraged the children to make more ecobricks at home and submit those ecobricks to them through school authorities.

Overall, it was a profoundly interactive and successful session which reminded the students of the harmful effects of plastic and inculcated in them a spirit to save the earth on the occasion of 'Earth Day'.

Land Permission Letter

To the Deputy Commissioner of Police
Kamla Market Police Station
Near Kamla Market, Kamla Market
Ajmeri Gate, New Delhi
Delhi 110002

Subject: Request for the Permission to Build a Washroom in the Kamla Market Police Station Compound.

Dear Sir,

We, Project Sugam from Enactus, Jesus & Mary College, hereby, address this letter to you to request you for your permission to build a publicly accessible washroom made out of eco-bricks in the compound of Kamla Market Police Station. As we approached Sub-Inspector Kiran Sethi with our idea, she suggested to us that we partner up for the welfare and needs of the society. We already have sufficient funds for the construction of the washroom which we crowdfunded through Milaap. We seek your permission for land, electricity, and water supply needed for the same.

Enactus is an international not-for-profit organization set up in over 2000+ universities worldwide. Enactus JMC was established in 2007 and works towards helping the marginalized sections of the society by creating livelihood opportunities and improving their standards of living through our projects which target sustainable development.

Project Sugam, one of the projects of Enactus JMC, revolves around tackling plastic waste and open defecation by building eco brick public washrooms. The washroom will be made out of eco-bricks which are plastic bottles (chosen in uniform size and shape) that are tightly packed with carefully cut pieces of clean, dry, and soft single-use plastic waste. These eco-bricks are arranged tightly together in structures called modules which will then be used to build the washroom. We ensure that they are adequately heavy and don't have air pockets. Additionally, our eco-bricks are filled with plastic items to its maximum capacity to eliminate gaps of oxygen which thereby makes it impossible for the eco-bricks to light on fire. Hence, they are sturdy and non-inflammable. We also have been employing marginalized women for the construction of eco-bricks.

*Excellent idea.
Happy to be part
of this noble work
As per request to provide
necessary assistance.

DIP/Carved*

We are equipped with both a practical blueprint for the set-up of this washroom and a diligent team who will work tirelessly to make this happen, and all we need is your support for the same. We are happy to furnish you with more details if required. We are hoping for a positive response from your side so that we can start the construction as soon as possible.

Thanking you,
Yours Sincerely,

Project Sugam

PROJECT IFFAT: FIELD VISIT

Enactus

Topic: Field Visit

Date: 4th June, 2023'

Location: Burari

No. of Participants: 10

On 4th June, Sunday, a field visit was conducted by the Project Iffat, Enactus JMC to Burari. Project Iffat aims at improving sanitation and tackling waste management by up-cycling barely used soap bars from hotels and turning them into new soap cakes. These soap bars are produced by women affected by HIV/AIDS and are sold at minimal prices in areas facing sanitation issues.

The field visit was conducted under the supervision of President- Kavya gupta , Vice President- Navya Joseph, General secretary- Sania Gupta along with the Project Head, Riana Singh.

The purpose of the visit was to meet the beneficiaries of the project, provide them with a soap training session and conduct the testing of the soaps produced.

During the visit, we had the opportunity to meet and interact with the following beneficiaries- Mariam didi, Aruna didi, Durga didi and Bimla didi. The following members of Enactus JMC were also present during the field visit- Yukti Suri, Laxmi Dubey, Aditee Khandelwal, Shreya Pandey, Anushka Soni and Diya Makker.

The soap-making training session was conducted by Mr. Vinay Singh Kumar, a production manager in Abeers Gramodyog (Khadi). The Training session started with a brief description about the history of soaps followed by making the beneficiaries familiar with the process of soap making, including the necessary ingredients, techniques, and safety measures.

The production of soaps was carried out concurrently with the training session. The beneficiaries actively participated in the session, displaying enthusiasm and eagerness to learn. Thereafter, We also engaged in an interactive session with the beneficiaries to understand their experiences and gather feedback regarding the project. The beneficiaries shared their stories, expressing gratitude for the opportunities provided by Project Iffat. After

the training session, we collected the soaps produced by the beneficiaries for testing at Economy Testing and Research Laboratory, Sonia Vihar, Delhi. The soaps were tested for quality, including factors such as fragrance, texture, and durability.

The field visit to Burari for Project Iffat was a productive and insightful experience. The soap training session conducted by the qualified training personnel empowered the beneficiaries with soap-making skills. The interactive session strengthened the bond between the project team and the beneficiaries. It further strengthened the project's commitment to empowering underprivileged individuals.

FIELD VISIT: PROJECT IFFAT

Enactus

Topic: Field Visit

Date: 17th June, 2023

Location: Burari

No. of Participants: 3

Overview:

On the 17th of June 2023, project co-head Riana, along with two members from project Iffat conducted a field visit to Mariam didi's house, which serves as the production site for Project Iffat in Burari. The purpose of the visit was to create a new batch of soaps and test their pH level. Additionally, the team sought guidance from ITL Labs to explore methods to reduce the pH level of the soaps.

Tasks undertaken:

- 1) **Soap Production:** During the field visit, the team focused on creating a new batch of soaps. The existing ingredients were supplemented with coconut oil and water to enhance the soap formulation and bring down the pH level.
- 2) **pH Testing:** After producing the new batch of soaps, the team conducted pH level testing to determine the acidity or alkalinity of the soaps.
- 3) **Recording Observations:** The team then recorded their observations during the pH testing. The collected data provided valuable insights into the current pH level of the soaps that will help in making necessary adjustments to meet quality standards.
- 4) **Contacting ITL Labs:** To gain a deeper understanding of methods to reduce the pH level of the soaps, the team reached out to ITL Labs.

Conclusion:

The field visit to Mariam didi's house for the Iffat project on 17th June 2023 was productive. The team successfully produced a new batch of soaps by incorporating additional ingredients and conducted pH testing to assess their acidity levels. The recorded observations will help us refine the soap formulation for optimal quality.

Introduction

Green Society JMC is a compulsory society of Jesus and Mary College, with more than 200 active members.

The Green Society functions to aid in the protection and preservation of our world, and hopes to encourage and equip young voices to understand, participate, and pioneer in the effort towards environmental healing. The society believes that it is important to take the initiative to spread awareness about various environmental issues too begin the effort to tackle them. Green Society aims to introduce these issues and nurture a sense of environmental responsibility amongst its members in a holistic manner.

To aid in accomplishing the society's objectives, the society organises a variety of interactive and informative events for its members. They include competitions, seminars, workshops, and activities such as nukkad nataks and documentary screenings.

The society also places n importance on community building and community identity, as the community is more impactful than an individual in the fight for environmental protection and preservation.

Women's Studies Centre Report Session 2022-23

The Women's Studies Centre of Jesus and Mary College is a UGC recognized academic Centre striving towards creating awareness regarding themes pertaining to gender and the women's movement and its intersections with other social structures. WSC offers certificate course classes, workshops, national student seminars, fundraisers, open mics, reading circles, research projects and much more. The composition of the Centre includes 300+ general body members, a core team of 4 teams - Advertising, Editorial, Organising and Research and the staff advisors.

The session 2022-23 began with the recruitment drives of the general body members and the core team members in September 2022. In collaboration with the Equal Opportunity Cell, WSC hosted a thought-provoking Open Mic event - *Zarafat* on November 7, 2022. The event focused on the legacy of Frida Kahlo, focusing on her life and contributions to feminist discourse. The event successfully showcased the talent, creativity, and passion of the JMC student community.

Later in January, the Centre organised an event titled "*Writing the World: In Conversation with Dr Nitasha Kaul*". Dr. Nitasha Kaul, a renowned multidisciplinary academic and novelist, graced the event with her presence. The conversation focused on the nuanced topic of feminist documentation of narratives of dispossession. Dr. Kaul's latest novel, "Future Tense," catalysed exploring the importance of a woman's language in tracing competing trajectories of modernity and tradition, freedom and suffocation. WSC also organised a screening of the documentary *Writing with Fire* by Rintu Thomas and Sushmit Ghosh on 31st January 2023.

In March, WSC organised two reading and discussion circles focusing on the influential book "The Dialectic of Sex: The Case for Feminist Revolution" by Shulamith Firestone. The sessions, presided over by Dr. Sandhya Nambiar, aimed to explore the profound insights and revolutionary ideas presented in Firestone's work. Participants had the opportunity to critically analyse Firestone's arguments, question established norms and beliefs, introspect and engage in dialogue.

WSC organised its annual fest - *Jagriti* on 5th and 6th April 2023. It was an attempt to create a diverse, dynamic and safe space for young students to engage with feminist discourses in multiple ways. As a part of the two day fest a student seminar was organised on the theme *Ghare/Baire (Home, Self and the World): Definitions, Contestations and Identities*. The seminar hosted 10+ papers from participants across the institutions of Delhi. A debate competition, a blackout poetry competition, a fundraiser, an open mic event - Jansunvai along with an art exhibition on women political prisoners were part of Jagriti. There were two keynote speakers, Deepa Shad and Vqueeram Aditya Sahai, who gave their wonderful insights during the Opening and the Closing Ceremony.

Apart from this, the Centre also works upon its annual magazine - Jigyasa and various independent research projects. We constantly release statements of solidarity and condemnation on issues of contemporary importance. WSC's online presence on various social media platforms like Instagram, Twitter, Facebook and its Blog also serve as platforms for our students to engage with several themes critically through a feminist lens. The Women's Studies Centre looks forward to the continued support and participation of individuals who resonate with our ideas and remain committed to promoting gender equality and justice.

Students' Council 2022-2023

The academic year 2022-2023 was extremely fruitful for the Students' Council, Jesus and Mary College. As it was the first academic year that was fully in the offline mode, the events calendar for the incoming team was chock-a-block.

The first major event in the calendar was the *Independence Day Celebration* in the college. This was the 75th Year of India's Independence, and the *Azadi ka Amrit Mahotsav* was commemorated through a flag hoisting ceremony, followed by sapling planting, and concluding with a cultural programme in Thevenet Hall on 12th August 2022. In the lead up to the event, a Reels-Making Competition on the theme "Wondrous Shades of India" was conducted, amalgamating the spirit of tradition and modernity. In keeping with UGC directives, information about the *Har Ghar Tiranga* campaign was also disseminated through the college website and NCC initiatives. 14th August was henceforth declared as "Partition Horrors Remembrance Day" by the Hon'ble Prime Minister of India, Sh. Narendra Modi. A digital exhibition curated by the Indian Council of Historical Research (IHCR) and the Indira Gandhi National Centre for the Arts (IGNCA) was uploaded on the JMC website, and a physical version was displayed in the foyer of Thevenet Hall during the Independence Day programme.

Due to the academic calendars of the three years being as yet not in sync, the elections for President and Vice President of the Students' Council were postponed till September. After voting concluded on 19th September, the results were declared on 20th September 2022. Minati Mishra and Angel Rean George subsequently took office as the President and Vice President of the Students' Council.

October 2022 witnessed a first in the history of JMC and the Students' Council, as the college collaborated with EUNIC (European Union National Institutes for Culture) to host *Festivscape* on 15th October 2022. The event was a medley of cultural activities designed to celebrate the coming together of diverse nations and people. A soccer tournament, musical performances, cultural dress fashion show, felicitation ceremony, food stalls and music made the day vibrant and educational. Diplomats from the participating nations greatly appreciated JMC's hospitality and organization.

First year admissions till the end of the year paralleled the examination schedule for the second and third years. Therefore, *Freshers' Welcome 2022-23* was conducted on 24th January 2023. Departments held their respective welcomes, after which the 'Fresher of the Year' contest was conducted in Thevenet Hall. The programme ended with the organization of a DJ for the first years to dance, and end the day with enthusiasm and excitement.

Setting our sights on the more academic side of things, the Students' Council decided to organize an *Education Fair* for the students, to provide them with information regarding potential future career opportunities based on their respective undergraduate arenas of study. In collaboration with School2Campus, the fair was held on 10th February 2023 from 10:00am onwards in the common room area. In the fair, institutions like Indian School of Hospitality, FDDI (Ministry of Commerce), Academy of Pastry Arts, University of Massachusetts, Boston, and many other national and international universities put up their stalls to engage with students and resolve queries regarding academic and professional concerns. The event was well-received by the students, with many interested in finding out more about studying abroad, while others seemed interested in exploring less conventional programmes.

Refusing to trod the beaten path, the Students' Council Convenor, Ms. Dolly Kapoor, decided to act on Principal Prof. Sandra Joseph's suggestion of organizing an ethnic day. Thus, the Students' council devised the idea for *Culture Connect 2023*, giving space to students of JMC to participate and volunteer in showcasing our country's multifaceted cultural heritage. *Culture Connect 2023* was held on 21st April. A faculty core team was created, and students from JMC as well as other colleges enthusiastically participated. The event provided them with a much-needed platform outside of the formalized structures of societies and traditional office-bearing roles. The fest was a roaring success, testifying to JMC's trend-setting legacy, with the hope that the event would now join the roster of JMC's annual fest, *Montage*. The event would not have been possible without the active contribution of a host of faculty members who stepped up and handled a diverse range of responsibilities related to the fest.

Bringing the academic year to an end on a bittersweet note, the Students' Council organised the official *Farewell* for the Batch of 2023 on 1st May 2023. In a deviation from the normal order of events, the main programme in the Thevenet Hall was held first, followed by Department level farewells. The main programme was deftly managed by the Vice President (Angel Rean George) along with her Core Team. Singing, dancing, and a video invoking collegiate nostalgia made it a memorable farewell for the outgoing batch.

As 1st May 2023 also happened to be Labour Day, therefore, at the suggestion of our esteemed Principal, the Students' Council Convenor and Staff Advisors organized a lunch for all the non-teaching staff of JMC. Our Principal, Prof. Sandra Joseph, and Students' Council Convenor, Ms. Dolly Kapoor, addressed the gathered non-teaching staff members, expressing their gratitude for all their hard work and dedication to making JMC the stellar institution that it is. On

behalf of JMC, a small token of appreciation was also presented by the Students' Council to the non-teaching staff members.

The Students' Council undertook numerous other minor activities throughout the academic session, and also participated in events organized by societies and other institutions. We would like to end our report by extending our gratitude to Principal ma'am for her constant encouragement in these endeavours, our Convenor Ms. Dolly Kapoor for her guidance and leadership, and our Staff Advisors, Ms. Monica Chhabra, Ms. Sameera Mehta and Ms. Varnika Singh for helping us execute all these events perfectly throughout the year.
