WELCOME MESSAGE FROM THE PRINCIPAL

On behalf of the management, teaching and non-teaching staff it is my privilege to usher you in with a warm welcome as you physically enter the portals of this institution. Given this rapidly evolving situation it is imperative that we build an ecosystem of resilience in our college. Your presence, we believe will bring life to its fullest on campus.

We are experiencing a slew of challenges. The main triggering factor being the Covid19 Pandemic which has created an unprecedented situation where we as institutions of higher learning had to adopt to online modes of teaching learning and assessment. With normalcy returning, we are still confronted with situations such as student safety, creating a conducive and safe learning environment, ensuring social distancing, providing adequate physical spaces and many more...

It requires conscientious approaches towards building an embedded risk management and agile system that will create positive energy and ample opportunities for student well-being on campus. The Task Force has carefully assessed the needs and to the best of our ability, taken into account all Covid19 protocols and are prepared to observe mandated requirements. The college has a well-equipped Covid19 prepared Medical room, should any one need immediate assistance.

The Student Council has been working towards welcoming you back to campus. Feel free to approach any of them for your needs. Further, each department has organized a Campus tour to familiarize you and to make you feel comfortable on campus. Should you have any special needs, your Teachers in charge, all Teaching and Non-teaching staff and the Student Council members will be available to support you at any time.

It is my sincere hope that we bounce back to normalcy slowly but surely.

God Bless!
