18. SWOC Analysis

Strength: Availability of reference material to our subjects are available in the library in online and hard copies in sufficient numbers. Diversity and inclusion is the biggest strength of the Department with strong students-teachers relationship. The inevitable intercultural dialogue helps develop their personality in multifaceted ways. Innovative teaching methods including experiential learning based field trips also help generating interactive classroom learning. **Weakness:** Limited contact with companies and people working in the real business world like web designers, animators etc. Language lab and lab for Environmental Science is also an obstacle in learning. **Opportunities:** The students find a variety of career options after graduation. Students learning French and Spanish can apply for exchange programs and can avail scholarships. **Challenges:** We are striving towards working up on placements.

19. Future Plans

Future plans: We are planning to strengthen our alumni network. We look up towards organising more intradepartmental and interdepartmental events. We also plan to strengthen our co-curricular activities.
