18. SWOC Analysis

Strengths: Fully qualified & motivated faculty. Willing and enthusiastic students. Library and rich online content is available on all topics related to the subject. Student teacher relationship. B.A. Program Department is offering a diverse number of courses. Thus, students from diverse backgrounds are the part of the department, making it resilient not being affected by socio, cultural and other adverse impacts. Diversity and inclusion is the biggest strength of the Department. **Weaknesses:** Limited contact with companies and people working in the real business world like web designers, animators etc. The prescribed curriculum has no provision of industrial training and exposure which is imperative for a field like computer science. Most of the Teachers are working on Ad-Hoc basis. **Opportunities:** The students find a variety of career options after graduation ranging from higher studies to joining Multi national companies, hotels , banks and government sector owing to their comprehensive training in computer science discipline. Students can also begin their own web designing, multimedia and advertising agency after graduation. Students learn from each other various cultural and academic skills. This helps develop their personality in multifaceted ways, helping towards their professional and personal endeavours. **Challenges** Convincing concerned stakeholders. We are striving towards working up on industry contact and collaboration program. We also look up towards organising more intradepartmental events like Seminars, Talks and workshops etc. At times, it becomes challenging to fulfil the expectations of a large number of students in various college events in terms of awarding a prize or arranging other resources.
