Feedback provided by Peer team:

- Major focus on 2015-20.
- Display
 - Put year in timetables
 - Faculty profile- original documents for degrees and publications (only 2015-20); all degrees should be placed; UGC approved journals and Scopus should be mentioned
 - Alumni progression needs to be highlighted. How does the department connect with them (books authored, event/workshops speakers, event/workshops participants, interaction sessions during and beyond classes, placements meet shared). How many of them have visited the department?
 - Students' progression across years
 - Students' diversity (In PPT)
 - Department events posters -add for 2015-16
- PPT
 - Vision of the programme as first slide (Claudine Thevenet's vision may be added to this)
 - Faculty profile can precede the eminent speakers slides

- Write every faculty has a dual specialization in masters (replace Diversity in title to dual masters)
- For qualitative feedback try to evolve rubrics for every student in later years. It was shared that we are using it already just not using the term.
- SWOC analysis: Lack of permanent appointments in the University in past many years (show it as structural issue not specific to JMC)
