

**ACADEMIC AUDIT REPORT IN RESPECT OF  
B A PROGRAMME DEPARTMENT, JESUS AND MARY COLLEGE,  
UNIVERSITY OF DELHI**

**Strengths:**

- **B A Program appears to be quite a vibrant program of the college. Two subjects about which the information is provided i. e Computer Application and French, seem to have been fairly worked upon.**
- **The faculty is actively engaged in curriculum development and innovative methods of teaching and learning. In Computer Application, learning new scripts, animations etc, Refresher Courses, innovating new technologies are in vogue for French, Faculty is quite involved in exploring new methods of teaching.**
- **On Students' front, despite the number of students being large, efforts are made towards improving mentor- ward relationship, maintaining alumni relationship, celebrating social events, francophonic days and other extra-curricular and out-reach activities.**

**Recommendations**

- **B A Program tends to diversify the intellectual domain of students in several fields, thus, equipping them for competitive examinations as in administration, banking, Military and other allied services. The program thus needs constant updates.**
- **The Department needs to be supported with further infrastructure and other learning resources as suggested by the faculty to cater to the large number of students joining this program.**
- **The above suggestion becomes further relevant considering the three-year plan initiatives of the Department reflected in wishing to start GE Paper, Honours Programme and organizing National Seminar Event.**

**Sudesh Nangia  
Professor, Jawaharlal Nehru University  
P2/1 DLF City Phase 2  
Gurgaon, 122008**
