Key Projects for MNCs, Corporate, Govt. of India, State Govt.,

mSVEEP & matdaan360 (Rajasthan 2018 & Lok Sabha Elections 2019) – District Administration, Chittorgarh, Alwar & ECI

App based platforms for Citizens & Election Machinery piloted & implemented during Rajasthan Assembly Elections, 2018 and Lok Sabha Election 2019 at District Chittorgarh and District Alwar respective with guidance of Election Commission of India & Chief Electoral Officer, Rajasthan. mSVEEP a citizen facing mobile app for knowing information about SVEEP initiatives, Interactive Mock Poll, BLO Directory and other useful information was used by more than *1.5 lakh citizens.* matdaan360, an internal app for officials felicitating coordination, communication amongst the election machinery in the district. One of the key highlights being use for reporting Polling Day Events by all PROs.

Shrine Board, Govt. of J&K

We've developed & launched an internal booking portal for Shri Mata Vaishno Devi Shrine Board for Chopper, Accommodation, Aarti, Darshan and other forms of booking. We'll soon begin work on a tenant portal for rent collection. The portals are conceptualized in close coordination with CEO, Shrine Board.

Rural Development Department, Govt. of J&K

A citizen facing mobile app-based solution by the name of 'Jan Nigarni' through which Citizens can report grievances around Govt. Schemes like MGNREGA, Swachh Bharat, IWMP and more under the purview of RDD, Govt. of J&K. The platform automatically maps complaints to officers at 4 levels of escalation from district to secretariat. The platform is scheduled for pilot phase launch and will go live across the state by end of July 2019.

JK RideSafe – Motor Vehicle Department.

RideSafe is a real time, location sensitive citizen centric platform enabling Swift Action and Response to driving issues reported from field and helping prevent accidents. The solution

MOBIQUEL

Regd. as MSME in Cat. 'D'

connects all stakeholders including Passengers/Road Users, Police and Administration on a single platform. RideSafe available on Android/iOS has been pilot tested across all districts of J&K with active involvement of RTOs has been launched in February 2019.

Trilogy & In The Market

A commercial leasing marketplace for a real estate firm based in New York. The platform allows Tenants for smart discovery of office spaces, landlords to efficiently list and manage their properties and brokers empowered with technology driven selling and client management. The platform is under active development and scheduled to go live in April 2019.

Aster Neuro

Aster Neuro Patient Journey App offers all the information about one's medical condition, treatment and recovery in an efficient manner. Choose your medical condition after installing the app and create your very own personal timeline to get relevant information about your medical condition, treatment and recovery. Beta version launched and live on Android/iOS.

APpStore – Andhra Pradesh Govt.

An application for AP Govt. developed as sub-consultant to Ernst & Young to felicitate a single stop app for all the state-run apps. The app store has apps filtered as per departments/roles, allows downloads, ratings and reviews, and supports English and Telugu language support.

NHAI – Vendor Evaluation Framework

A web platform for NHAI developed as sub-consultant to Deloitte to perform vendor assessment and evaluation for all the projects under NHAI. The platform supports login for Vendors, Assessors, Reviewers and Expert Committee apart from having an Admin Module. The platform has Deloitte and QCIs performance rating framework integrated to assessment the performance on multiple parameters and generates a score.

Humsafar Road Safety Solution

'Humsafar' provides quickest emergency response to accident victims during Golden Hour by connecting all stakeholders including Ambulance, Hospitals, Police, Transport and District Administration on a single platform. An emergency reported in the 'Humsafar' system is auto mapped to the nearest available ambulance to the victim. The ambulance is also guided by navigation to victim's location and nearest hospital based on location coordinates. 'Humsafar' also alerts and empowers all stakeholders including Doctors in the nearest Hospital, nearest Police Station and District Administration for advance preparedness and action. Available as an Android
